Cleaning Recommendations

Tips for cleaning IPI materials:

1. As a general rule, *IPI recommends using mild soap and water whenever possible.*
 2. Test a piece of scrap or small area of the material before cleaning entire piece.
 3. Use only soft cloths or sponges for cleaning. Do NOT use Brillo®/S.O.S.® pads or steel wool.
 4. Use a Q-Tip® to clean small areas.
 5. Rinse with warm water.
 6. Ultrasonic cleaning is NOT RECOMMENDED for *any* IPI material.
 7. To remove dust from engraved areas, try compressed air before any solvent cleaner.
 8. Cleaners with abrasives, such as Comet® brand cleaner, are not recommended.
